```
  GNU nano 5.3                                    grep.txt
i will read  untill i understand everything
i will read  to afternoon
i will go to outing today afternoon
Here is the ball

[root@localhost 11249A180]# touch grep.txt
[root@localhost 11249A180]# echo " i will read today nigth.
> today is monday.
> i will play today eveing." >grep.txt
[root@localhost 11249A180]# grep "read" grep.txt
 i will read today nigth.
[root@localhost 11249A180]# grep -i "today" grep.txt
 i will read today nigth.
today is monday.
i will play today eveing.
[root@localhost 11249A180]# grep -n "monday" grep.txt
2:today is monday.
[root@localhost 11249A180]# grep -c "play" grep.txt
1
[root@localhost 11249A180]# grep -l "evening" grep.txt
[root@localhost 11249A180]# grep -l "eveing" grep.txt
grep.txt
[root@localhost 11249A180]# grep -v "read" grep.txt
today is monday.
i will play today eveing.
[root@localhost 11249A180]# grep -w "eveing" grep.txt
i will play today eveing.
[root@localhost 11249A180]# grep -r "today" grep.txt
 i will read today nigth.
today is monday.
i will play today eveing.
[root@localhost 11249A180]# grep -o "play" grep.txt
play
[root@localhost 11249A180]# grep -e "monday" grep.txt
today is monday.
[root@localhost 11249A180]# grep -n grep.txt
^C
[root@localhost 11249A180]# grep $ "play" grep.txt
```
